**Television Sports Production** Mar 30 2020 Television sports production is difficult, and producing a remote sports event is arguably the most complicated to orchestrate. Many factors can adversely affect your production, including weather, lighting, and natural sound. A successful production is dependent on extensive planning, from budgets, technology and location to the intricacies of the sport itself. With so much at stake, why not learn from the experts? Learn television sports production from the ISB, producers of the Olympics, who rely on the very same guide to train their own production staff. "Television Sports Production" walks you through the planning, set-up, directing, announcing, and editing involved with producing an event. Detailed descriptions of mobile units/OB vans, cameras, audio equipment and lighting requirements enable you to produce live or taped coverage of sporting events like an expert. You'll learn about the special considerations involved with producing various types of sports--from camera placement in figure skating to where to put the microphone during a tennis match. Whether producing a local high school football game, the Super Bowl, or something as complex as the Olympics, this book will give you an inside look at how a remote production operates and the role of each participant.

*June Cleaver Was a Feminist!* Mar 11 2021 Long dismissed as ciphers, sycophants and "Stepford Wives," women characters of primetime television during the 1950s through the 1980s are overdue for this careful reassessment. From smart, savvy wives and resilient mothers (including the much-maligned June Cleaver and Donna Reed) to talented working women (long before the debut of "Mary Tyler Moore") to crimebusters and even criminals, American women on television emerge as a diverse, empowered, individualistic, and capable lot, highly worthy

of emulation and appreciation.

*Hanna-Barbera* Dec 28 2019 With careers spanning eight decades, William Hanna and Joseph Barbera were two of the most prolific animation producers in American history. In 1940, the two met at MGM and created Tom and Jerry, who would earn 14 Academy Award nominations and seven wins. The growth of television led to the founding of Hanna-Barbera's legendary studio that produced countless hours of cartoons, with beloved characters from Fred Flintstone, George Jetson and Scooby-Doo to the Super Friends and the Smurfs. Prime-time animated sitcoms, Saturday morning cartoons, and Cartoon Network's cable animation are some of the many areas of television revolutionized by the team. Their productions are critical to our cultural history, reflecting ideologies and trends in both media and society. This book offers a complete company history and examines its productions' influences, changing technologies, and enduring cultural legacy, with careful attention to Hanna-Barbera's problematic record of racial and gender representation.

**"Good Night, Chet"** Jun 01 2020 "If a judgment were ever rendered on all the multi-million words I have spoken into microphones, I hope something like this could be said: 'He [Huntley] had a great respect, almost an awe, of the medium in which he worked. He regarded it as a

privilege, not a license.... Perhaps the best I might hope is that by some accident of voice tone or arrangement of words I did, on a few occasions, excite, exhort, annoy or provoke a few of my fellow human beings to think with their heads, not the viscera'" —Chet Huntley. This biography of NBC newsman Chet Huntley, who, along with David Brinkley, anchored NBC's "Huntley-Brinkley Report," covers his youth on a farm in Montana, his education and his graduation from the University of Washington, his development as a radio personality and news reporter for stations in Seattle, Spokane, Portland, and his work for CBS, ABC and NBC radio and television in Los Angeles from 1939 to 1955. It also details his move to New York and his work on the "Huntley-Brinkley Report" from 1956 to 1970, his retirement from the news business, his supervision of the development of the Big Sky Ski resort in Montana, and his death from cancer in 1974 at the age of 62.

Television and Political Communication in the Late Soviet Union Feb 28 2020 This study focuses on Soviet television audiences and examines their watching habits and the way they made use of television programs. Kirsten Bönker challenges the common misconception that viewers perceived Soviet television programming and entertainment culture as dull and formulaic. This study draws extensively on archival sources and oral history interviews to analyze how Soviet television involved audiences in political communication and how it addressed audiences' emotional commitments to Soviet values and the Soviet way of life. Bönker argues that the Brezhnev era influenced political stability and brought an unprecedented rise of the living standards, creating new meanings for consumerism, the idea of the "home," and private life among Soviet citizens. Exploring the concept of emotional bonding, this study engages broader discussions on the durability of the Soviet Union until perestroika.
