The Code of Federal Regulations is the codification of the general and permanent rules published in the Federal Register by the executive departments and agencies of the Federal Government. Special edition of the Federal Register, containing a codification of documents of general applicability and future effect as of July 1 ... with ancillaries. This volume offers eloquent and carefully reasoned arguments for a human-centered approach to the development and implementation of new technology in aviation. Part I is an overview of automation in aviation and explains both the application of automation and the concept of human-centered

automation. Part II traces the evolution and course of aviation automation. This covers industrial automation, air traffic control and management as well as aircraft automation. Part III discusses the role of human operators in the aviation system and human and machine integration and coupling in the future aviation system. Part IV looks to the future; it expands on novel concepts and discusses requirements for aviation automation and its certification. Appendices on aviation accidents and incidents and the Wiener and Curry Guidelines for Aircraft Automation (1980) are included. The volume comprises proceedings of the 10th International Conference on Recent Advances in Civil Aviation. The contents focus on air traffic control and management, quality control and reliability improvement of radio equipment and avionics, designing and testing aircraft assemblies and mechanisms, reliability improvement of aircraft management systems, aviation enterprise management, etc. There is also emphasis on the current problems and prospects for development of unmanned aircraft systems. This volume will be beneficial to researchers, practitioners, and policy-makers alike. The Code of Federal Regulations is a codification of the general and permanent rules published in the Federal Register by the Executive departments and agencies of the United States Federal Government. The Code of Federal Regulations Title 14

contains the codified Federal laws and regulations that are in effect as of the date of the publication pertaining to aeronautics, air transportation / aviation (including large and small aircraft, such as commercial airplanes, helicopters, balloons and gliders), and space exploration, including areas overseen by the FAA and NASA.
