**The Tapestry of Early Christian Discourse** Aug 30 2022 This study establishes a concept of culture and then combines it with Geertz' anthropological concept of thick description. Subsequently, the relation of texts to society and culture is discussed. In this manner, multiple methods of interpretation are used in an organized and programmatic way, allowing the reader insights into the development of early Christianity. In this study, Vernon Robbins expounds and develops his system of socio-rhetorical criticism, bringing together social-scientific and literary-critical approaches to explore early Christianity. This book investigates Christianity as a cultural phenomenon, and treats its canonical texts as ideological constructs. *Discourses on the four Gospels. [With] To which is subjoined, A*

*sermon on the manner of our Saviour's teaching* Oct 20 2021 *Akademische Lehrkompetenzen im Diskurs A Discourse on Academic Teaching Competencies* Nov 28 2019 Lernendenzentrierung und Kompetenzorientierung haben an Hochschulen längst Einzug gehalten. Forschungs- und Reflexionsbedarf besteht jedoch hinsichtlich der praktischen Konsequenzen, die sich daraus ergeben. Welche Kompetenzen sind nötig, um lernendenzentrierte und kompetenzorientierte Lehre umsetzen zu können? Geht mit dem Wandel universitärer Bildungskonzepte eine Änderung des Lehrendenbildes einher? Welche Herausforderungen sind in der universitären Weiterbildung zu lokalisieren? In diesem Sinne richten die AutorInnen dieser Publikation den Blick auf die Entwicklung der Kompetenzen von Lehrenden. Präsentiert, diskutiert und reflektiert werden insbesondere theoretisch-wissenschaftliche Konzepte zu Themen der Hochschuldidaktik, des Bildungs- und Ressourcenmanagements, der Sprachlernforschung sowie der Sprachendidaktik. Learner-centred and competence-oriented approaches have long since made their way into institutions of higher learning. There is however still a need for research on the practical consequences. What competences are necessary to be able to implement learner-centred and competence-oriented teaching? Does the change in academic concepts of education lead us to a new understanding of teachers and the role they play? What challenges does academic continuing education face? With this in mind, the authors turn their attention to the development of teacher competences. They present, discuss and reflect in particular on theoretical and academic concepts on topics concerning university didactics, education and resource management, research on language learning and language teaching.

**The Numerical Discourses of the Buddha** Mar 13 2021 This much-anticipated volume contains a full translation from the Pali of the Anguttara Nikaya, the fourth collection of the canonical discourses of the Buddha. The primary focus of the Anguttara Nikaya is practice, which it treats from a wide-angle perspective, advancing from basic ethical observances, through the pillars of mind training, to the highest meditative attainments. The Anguttara is also distinguished among the Nikayas by its interest in types of persons, which it describes in detail and with memorable similes. The Numerical Discourses of the Buddha continues Wisdom's Teachings of the Buddha series, which has been praised by scholars and practitioners alike for its beautifully presented, highest quality, annotated translations of the words of the Buddha.

*Discourses on Livy* Dec 02 2022 Discourses on Livy is the founding

document of modern republicanism, and Harvey C. Mansfield and Nathan Tarcov have provided the definitive English translation of this classic work. Faithful to the original Italian text, properly attentive to Machiavelli's idiom and subtlety of thought, it is eminently readable. With a substantial introduction, extensive explanatory notes, a glossary of key words, and an annotated index, the Discourses reveals Machiavelli's radical vision of a new science of politics, a vision of "new modes and orders" that continue to shape the modern ethos. "[Machiavelli] found in Livy the means to inspire scholars for five centuries. Within the Discourses, often hidden and sometimes unintended by their author, lie the seeds of modern political thought. . . [Mansfield and Tarcov's] translation is careful and idiomatic."—Peter Stothard, The Times "Translated with painstaking accuracy—but also great readability."—Weekly Standard "A model of contemporary scholarship and a brave effort at Machiavelli translation that allows the great Florentine to speak in his own voice."—Choice *Discourses* Feb 21 2022

**Discourses and Representations of Friendship in Early Modern Europe, 1500-1700** Apr 25 2022 Interdisciplinary in scope, this collection examines the varied and complex ways in which early modern Europeans imagined, discussed and enacted friendship, a fundamentally elective relationship between individuals otherwise bound in prescribed familial, religious and political associations. The volume is carefully designed to reflect the complexity and multifaceted nature of early modern friendship, and each chapter comprises a case study of specific contexts, narratives and/or lived friendships. Contributors include scholars of British, French, Italian and Spanish culture, offering literary, historical, religious, and political perspectives. *Discourses and Representations of Friendship in Early Modern Europe, 1500-1700* lays the groundwork for a taxonomy of the transformations of friendship discourse in Western Europe and its overlap with emergent views of the psyche and the body, as well as of the relationship of the self to others, classes, social institutions and the state.

**Early Buddhist Discourses** Jan 23 2022 New translations of a selection of 17 central discourses from the Pali Canon, including at least one substantial reading from each of the major subfields—ethics, epistemology, metaphysics, logic, meditative practices, social philosophy—addressed within the early Buddhist scriptures. Includes a general Introduction, chapter introductions, a glossary, and a select bibliography.

**Lesbian Discourses** Jul 05 2020 *Lesbian Discourses* is the first book-length treatment of lesbian text and discourse. It looks at what changing images of community American and British lesbian authors have communicated since 1970, how this change can be traced in texts such as pamphlets, magazines and blogs, and why this change has

taken place. At the heart of the book is a detailed linguistic analysis, which is embedded in a discussion of the relevant socio-political contexts and discourse practices, and supplemented by interview data. The book can more generally be read as an example of how to do textual analysis in social research, in particular how to engage in the discourse-historical and socio-cognitive study of collective identity. Despite its text-centered approach, the book avoids being overly technical and will therefore be of interest not only to postgraduate students and researchers in linguistics but also to those in anthropology, history and sociology, especially women's/gender studies.

*Music as Discourse* Jun 03 2020 The question of whether music has meaning has been the subject of sustained debate ever since music became a subject of academic inquiry. Is music a language? Does it communicate specific ideas and emotions? What does music mean, and how does this meaning occur? Kofi Agawu's *Music as Discourse* has become a standard and definitive work in musical semiotics. Working at the nexus of musicology, ethnomusicology, and music philosophy and aesthetics, Agawu presents a synthetic and innovative approach to musical meaning which argues deftly for the thinking of music as a discourse in itself--composed not only of sequences of gestures, phrases, or progressions, but rather also of the very philosophical and linguistic props that enable the analytical formulations made about music as an object of study. The book provides extensive demonstration of the pertinence of a semiological approach to understanding the fully-freighted language of romantic music, stresses the importance of a generative approach to tonal understanding, and provides further insight into the analogy between music and language. *Music as Discourse* is an essential read for all who are interested in the theory, analysis and semiotics of music of the romantic period.

**Discourse Analysis as Theory and Method** Oct 27 2019 *Discourse Analysis as Theory and Method* is a systematic introduction to discourse analysis as a body of theories and methods for social research. It brings together three central approaches, Laclau and Mouffe's discourse theory, critical discourse analysis and discursive psychology, in order to establish a dialogue between different forms of

discourse analysis often kept apart by disciplinary boundaries. The book introduces the three approaches in a clear and easily comprehensible manner, explaining the distinctive philosophical premises and theoretical perspectives of each approach as well as the methodological guidelines and tools they provide for empirical discourse analysis. The authors also demonstrate the possibilities for combining different discourse analytical and non-discourse analytical approaches in empirical study. Finally, they contextualize discourse analysis within the social constructionist debate about critical social research, rejecting the view that a critical stance is incompatible with social constructionist premises and arguing that critique must be an inherent part of social research.

*Corpus · Culture · Discourse* Apr 01 2020 *Corpus, Culture and Discourse* is a groundbreaking new study of academic discourse across cultures, languages and disciplines that will be of interest to researchers and practitioners in language for specific purposes, corpus linguistics and intercultural communication/pragmatics. Based on a large-scale parallel corpus, the study examines social interaction, identity construction and metadiscourse in English- and Germanlanguage research articles across five disciplines. The innovative combination of quantitative corpus and statistical analyses with detailed qualitative analysis delivers some surprising and interesting results.

**Parliamentary Discourses across Cultures** Jul 29 2022 This volume looks at the growing interest of different specialists in the problems associated with political discourse, in general, and parliamentary discourse, as one of its major sub-genres, in particular. Its main goal is to offer a deeper understanding of the diversity of parliamentary practices across space and time. The papers aim to highlight the role played by local social and historical factors, ideologies, collective mentalities, and social psychology in building up culture-specific traditions of political institutions. Approaching the problems from a large variety of theoretical perspectives, the investigations are based on flexible, interdisciplinary, and multi-layered methodologies, offering an image of the multifaceted manifestations of parliamentary debates. The volume addresses specialists in several fields, such as linguistics, discourse analysis, history, political science, sociology, (social) anthropology, (social) psychology, media and communication.

*Discourse Networks, 1800/1900* Oct 08 2020 This is a highly original book about the connections between historical moment, social structure, technology, communication systems, and what is said and thought using these systems - notably literature. The author focuses on the differences between 'discourse networks' in 1800 and in 1900, in the process developing a new analysis of the shift from romanticism to modernism. The work might be classified as a German equivalent to the New Historicism that is currently of great interest among American literary scholars, both in the intellectual influences to which Kittler responds and in his concern to ground literature in the most

concrete details of historical reality. The artful structure of the book begins with Goethe's *Faust* and ends with Vale;ry's *Faust*. In the 1800 section, the author discusses how language was learned, the emergence of the modern university, the associated beginning of the interpretation of contemporary literature, and the canonization of literature. Among the writers and works Kittler analyzes in addition to Goethe's *Faust* are Schlegel, Hegel, E. T. A. Hoffman's 'The Golden Pot', and Goethe's *Tasso*. The 1900 section argues that the new discourse network in which literature is situated in the modern period is characterized by new technological media - film, the photograph, and the typewritten page - and the crisis that these caused for literary production. Along the way, the author discusses the work of Nietzsche, Gertrude Stein, Mallarme;, Bram Stroker, the Surrealists, Rilke, Kafka, and Freud, among others.

*Cervantes, Literature, and the Discourse of Politics* Nov 20 2021 What is the role of literature in the formation of the state? Anthony J. Cascardi takes up this fundamental question in *Cervantes, Literature, and the Discourse of Politics*, a comprehensive analysis of the presence of politics in *Don Quixote*. Cascardi argues that when public speech is constrained, as it was in seventeenth-century Spain, politics must be addressed through indirect forms including comedy, myth, and travellers' tales. *Cervantes, Literature, and the Discourse of Politics* convincingly re-engages the ancient roots of political theory in modern literature by situating Cervantes within a long line of political thinkers. Cascardi notably connects Cervantes's political theory to Plato's, much as the writer's literary criticism has been firmly linked to Aristotle's. He also shows how Cervantes's view of literature provided a compelling alternative to the modern, scientific politics of Machiavelli and Hobbes, highlighting the potential interplay of literature and politics in an ideal state.

**Discourse Markers** Aug 18 2021 Discourse markers - the particles oh, well, now, then, you know and I mean, and the connectives so, because, and, but and or - perform important functions in conversation. Dr Schiffrin's approach is firmly interdisciplinary, within linguistics and sociology, and her rigorous analysis clearly demonstrates that neither the markers, nor the discourse within which they function, can be understood from one point of view alone, but only as an integration of structural, semantic, pragmatic, and social factors. The core of the book is a comparative analysis of markers within conversational discourse collected by Dr Schiffrin during sociolinguistic fieldwork. The study concludes that markers provide contextual coordinates which aid in the production and interpretation

of coherent conversation at both local and global levels of organization. It raises a wide range of theoretical and methodological issues important to discourse analysis - including the relationship between meaning and use, the role of qualitative and quantitative analyses - and the insights it offers will be of particular value to readers confronting the very substantial problems presented by the search for a model of discourse which is based on what people actually say, mean, and do with words in everyday social interaction.

Originally published as *The Continuum Companion to Discourse Analysis*, this book is designed to be the essential one-volume resource for advanced students and academics. This companion offers a comprehensive and accessible reference resource to research in contemporary discourse studies. In 21 chapters written by leading figures in the field, the volume provides readers with an authoritative overview of key terms, methods and current research topics and directions. It offers both a survey of current research and gives more practical guidance for advanced study in the area. The volume covers all the most important issues, concepts, movements and approaches in the field and features a glossary of key terms in the area of discourse analysis. It is the complete resource for postgraduate students and researchers working within discourse studies, applied linguistics, TESOL and the social sciences.

[Intonation in Text and Discourse](#) Nov 08 2020 It is clear that a printed text provides the reader with more information than the words alone. This includes punctuation marks, capitalisation, paragraphs, headings and sub-headings, all of which help the reader to understand how the words are organised into sentences, and sentences are organised into a coherent text. In a spoken text, this typographical information is necessarily absent. So how do readers and speakers provide

equivalent information to the listener? *Intonation in Text and Discourse* describes the way in which speech melody, or intonation, is used to signal the structure of spoken texts. It examines the role of intonation in clarifying the relationship between successive utterances, from close cohesive ties ('middles') to major breaks for a new topic ('ends' and 'beginnings'). The book is concerned chiefly with the intonational structuring of read or prepared monologue, but also devotes a chapter to current developments in the analysis of intonation in conversation. It describes not only how intonation is used to organise systematic turn-taking but also how it can signal greater or lesser degrees of co-operativeness. It addresses finally the complex issue of attitudinal intonation - the elusive 'tone of voice'. The first book on discourse intonation to deal with such a wide variety of naturally-occurring spoken data, *Intonation in Text and Discourse* will be of great interest to students, lecturers and researchers of intonation and all aspects of spoken discourse.

[Imagining India in Discourse](#) Apr 13 2021 The economic liberalization of India, changes in global structures, and the rapid emergence of India on the global landscape have been accompanied by the dramatic rise in popular, public, and elite discourses that offer the promise to imagine India. Written mostly in the future tense, these discourses conceive of India through specific frames of global change and simultaneously offer prescriptive suggestions for the pathways to fulfilling the vision. Both as summary accounts of the shifts taking place in India and in the relationships of India with other global actors as well as roadmaps for the immediate and longer term directions for India, these discourses offer meaningful entry points into elite imaginations of India. Engaging these imaginations creates a framework for understanding the tropes that are mobilized in support of specific policy formulations in economic, political, cultural, and social spheres. Connecting meanings within networks of power and structure help make sense of the symbolic articulations of India within

material relationships.

*Antiracist Discourse in Brazil* Sep 06 2020 *Antiracist Discourse in Brazil: From Abolition to Affirmative Action* follows Teun A. van Dijk's earlier studies on racist discourse in Europe, the USA, and Latin America. This book focuses on antiracist discourse, focusing on the history of the discourse against slavery and racism and in favor of abolition and affirmative action in Brazil. After a theoretical chapter on antiracism and antiracist discourse, the author studies Jesuit texts of the 17th and 18th century criticizing the abuses against slaves and the texts of black and white writers in the 19th century advocating abolition. The author analyzes discourses of 20th century scholars, journalists, and activists who explicitly combat prevalent international eugenicist and racist ideologies as well as post-abolition discrimination of black people all while challenging the dominant myth of Brazil as a 'racial democracy.' After the historical study of these antiracist discourses, this book offers a detailed case study of contemporary debates on affirmative action in Brazilian parliament.
