Milestone Moments in Getting your PhD in Qualitative Research Aug 30 2022 Milestone Moments in Getting your PhD in Qualitative Research is a guide for research students completing higher degrees with a focus on the importance of language and terminology of the theoretical and practical requirements of a given research program. The book responds to a lack of preparedness among many entrants into higher-degrees in contemporary higher education. The need among non-traditional entrants into higher-degrees for a strong background in core academic principles is made pressing due to the lack of preparation many students undergo prior to enrolment. This book might be consulted by research students as they proceed through the various milestones that may form part of a higher-degree. Offers guidance to research students working through the stages of a higher degree Provides practical advice on terminology and language Give examples of methodologies, their advantages and disadvantages Grounded in real student experience to offer a practical edge

Nyerere and Africa Jun 15 2021 This is the fourth edition of 'Nyerere and Africa: End of an Era. It is also the largest and includes new material not found in previous editions. The work is a comprehensive study of the political career of President Julius Nyerere spanning half a century. The author takes a critical look at Nyerere's policies and influence in the domestic and international arenas for an objective evaluation of the life and times of one of the most influential leaders in the twentieth century. The major role he played in the liberation of southern Africa is just one of the subjects addressed by the author. He also provides insights into Nyerere's personality from some of the people who knew him best. Included in the book are interviews with some of the people who knew Nyerere since his childhood. Some of them were his teachers. And they outlived him. Others were his schoolmates and colleagues in government and when he was a teacher. And some of them were his students. Also included are interviews with some of his family members. This is an essential study of post-colonial Africa. It is also a study in political leadership and Cold War politics in the African context, among many other subjects addressed in the book which should serve as a reference text for scholars and laymen alike interested in Africa and the Third World in general.

How to Publish Your PhD Nov 01 2022 You've passed your viva, you've changed your title to Dr on your bank cards. Now you want to turn your thesis into a monograph. You're keen to get started, but how exactly do you go about it? Do you just need to make a few tweaks here and there? Or are you

going to have to rewrite every single word? What on earth is a monograph, anyway? There's a lot to understand before you embark upon your writing adventure. This practical book guides you through everything you need to know about academic publishing in the 21st century. You'll establish your purpose and scope, plan your schedule, approach a publisher, and actually write your book.

Catherine Pope draws on her own experience of writing and publishing to support you through each stage of the process.

Prepare, Succeed, Advance, Second Edition Oct 08 2020 What if you had a guidebook that you could turn to at each stage of your academic journey to help you navigate through the process of getting a PhD in Biblical Studies and succeeding in the academic world? This book is precisely intended to fill that need. From theory to practice, you will find discussions and answers to the most pertinent and pressing questions that prospective and current doctoral students are faced with: How do I choose a program? How can I gain admission into an elite program? How do I choose a research topic? Alongside the "big" questions about the process, there are also a host of smaller matters: How do I publish an article? What conferences are out there in my field? Where do I start looking for a job? How do I get teaching experience? How do I write a syllabus? This guidebook tackles all of these questions and many more in three parts: Prepare focuses on getting into a PhD program; Succeed guides you through the doctoral program, especially the writing of the dissertation; and Advance treats issues that relate to success in the academic world such as conference participation, publishing, employment, and best practices in teaching. PRAISE FOR THE FIRST EDITION "Gupta has kindly provided me a book version of an academic mentor. In a time when many professors are busy, Gupta walks the extra mile and makes himself present not only in person to those near him, but also in writing for those like me. I can't thank him enough!" --Natan B. de Carvalho, College Student "Dr. Gupta's book offered indispensable advice for me as I applied for PhD programs, completed my thesis, and applied for (and secured) tenure-track jobs. I am grateful for his service to the guild!" --Madison N. Pierce, Assistant Professor in New Testament, TEDS "Having started seminary about a year after the first edition appeared, I was able to use Gupta's abundance of clear-headed advice to build a path to doctoral study. I can see, as a student in a first-tier PhD program, that this journey would not have been possible had I not been able to learn the many unspoken rules Gupta outlines in this invaluable book." --Jonathan Groce, New Testament PhD student at Emory University "This book should be required for anyone even slightly interested in biblical higher education. I've enjoyed it so much that I've bought it three times, having given it away to two students." --Ryan Lytton, Director of Academic Services and Adjunct Professor at Life Pacific University-Virginia "This book has proven immensely helpful as I navigated the PhD application process. Providing useful benchmarks and invaluable suggestions, Gupta's sage advice prepared me for success." --Benjamin Castaneda, PhD student at the University of St. Andrews "The world of academic biblical studies can be difficult to navigate, especially for ethnic minorities. This book has prepared me well by making an opaque process clear and straightforward. I recommend it to anyone considering this path." --Daniel K. Eng, PhD candidate, University of Cambridge "I wanted to thank you for the invaluable guidance your book provided as I made decisions concerning my academic future. I have just completed my M.A. in Classical Studies at Villanova and was accepted into graduate programs at both Edinburgh and Oxford. Every step of the way your text provided clear and specific recommendations. It was a true blessing." --Ken Tully, Adjunct Faculty at Villanova "Prepare, Succeed, Advance is a tremendously helpful reference tool. As an academic advisor, I will make this the first resource I recommend to colleagues who may not have the advantage of personal experience in a PhD program. As a student, I will regularly return to Gupta's work for counsel on the next stage of academic life. Doctoral students should rejoice at having such a sure guide to academic success and commend Gupta for his contribution." --Samuel Emadi, review in JETS 56/1 (2013) 139-141, (140-141) "This guide is indispensable to anyone thinking about a PhD." --Abram K-J, "Should I get a PhD?" Words on the Word blog, July 9 2012 "Nijay Gupta's Prepare, Succeed, Advance: A Guidebook for Getting a PhD in Biblical Studies and Beyond is just that, a guidebook. It does not claim to provide a formula on how the entire process works. At the same time, it is more

than that in the sense that Gupta's honesty, attention to detail, and measured optimism throughout the entire book give his voice a level of credibility and warmth that prospective students will find invaluable as they begin their own individual paths toward academia." --Michael Suh, PhD, Emory, review in RBL: October 2014 "Prepare, Succeed, Advance has so many helpful points that my highlighter almost gave out. If you have even the tiniest desire to pursue a PhD in Biblical Studies, get a few pencils, two highlighters, and a copy of this book. You won't be sorry." --Andrew Kelley, PhD, Edinburgh "When I started to investigate what a PhD in Biblical Studies entailed I was lost. What do schools look for? What programs are better for what field? So many questions, and so little (quality) answers. When I found Dr. Gupta's book I found both a map and compass. His book laid out the road ahead--including avenues to avoid, and boulevards to explore in more detail. Following Dr. Gupta's candid advice I have received offers to study at a couple of UK PhD programs. I think I owe Dr. Gupta some money! Buy this book--you will not be disappointed!" --Joshua Morris

Doing Qualitative Research Mar 13 2021 Need practical advice on how to do your first qualitative research project? This book will guide you through each step of the research process: from brainstorming ideas and working with your supervisor to navigating the field to writing up your results. Driven by examples from other students' projects, the book features discussions on translating social problems into research topics, collecting data in the wake of a pandemic, and guidance from Qualitative Data Analysis Software expert Christian Schmieder to help you summarise, categorise, and review qualitative data. A new chapter on how much data you need answers the age-old question: 'how many interviews or case studies are enough?' It also includes: - Articles and websites to build your bibliography - Questions to test your knowledge - Videos from world-leading qualitative experts - Activities to dig deeper into key concepts and think critically about research - Lessons-learned discussions with other researchers - Exercises to help you choose the right path for your project. Key features: in addition to the online Silverman Workshops, the book includes top tips, end-of-chapter checklists to test your understanding, and annotated further reading so you can develop your knowledge further.

Successful Research Careers: A Practical Guide Jan 11 2021 It is not hard to be a research active academic, or to build a research group, or to create a research culture. Here are sensible strategies available to everyone, and that empower everyone in higher education. Seizing the opportunities, refusing to be a victim, and " most importantly " learning how the system works, are among the strategies available to anyone motivated to succeed. This book takes a radical, unstuffy look at higher education. It is of interest and relevance to anyone working in the higher education sector. Based on the authors'™ research on research groups, and on their experience as Head of Department, Dean and Pro Vice-Chancellor, the book provides advice for younger academics making their way in the system, and for more senior people who need to mentor research staff, build research groups and shape research-led careers. The book provides practical advice on key aspects of research activity: getting research grants, publishing in peer-reviewed journals, and writing books. The current climate of research activity is discussed in the context of Research Assessment, and the context of " glittering prizes"™.

Research Methodologies in EU and International Law Sep 26 2019 Law research students often begin their PhDs without having an awareness of methodology, or the opportunity to think about the practice of research and its theoretical implications. Law Schools are, however, increasingly alive to the need to provide training in research methods to their students. They are also alive to the need to develop the research capacities of their early career scholars, not least for the Research Excellence Framework exercise. This book offers a structured approach to doing so, focusing on issues of methodology - ie, the theoretical elements of research - within the context of EU and international law. The book can be used alone, or could form the basis of a seminar-based course, or a departmental, or even regional, discussion group. At the core of the book are the materials produced for a series of workshops, funded by the Arts & Humanities Research Council's Collaborative Doctoral Training Fund, on Legal Research Methodologies in EU and international law. These

materials consist of a document with readings on main and less mainstream methodological approaches (what we call modern and critical approaches, and the 'law and' approaches) to research in EU and international law, and a series of questions and exercises which encourage reflection on those readings, both in their own terms, and in terms of different research agendas. There are also supporting materials, giving guidance on practical matters, such as how to give a paper or be a discussant at an academic conference. The basic aim of the book is to help scholars in EU and international law reflect on their research: where does it fit within the discipline, what kinds of research questions they think interesting, how do they pursue them, what theoretical perspective best supports their way of thinking their project, and so on. The book is aimed both at PhD students and early career scholars in EU and international law, and also at more established scholars who are interested in reflecting on the development of their discipline, as well as supervising research projects.

How to Write a PhD in Less Than 3 Years Jul 29 2022 I have purchased the ' Personalized Back Cover' option and this is the text that should appear at the back cover of my book: Is there room for yet another book on PhD-writing? Yes there is. Most of the available publications on this topic are contributions from professional academics, written from the perspective of supervisors or examiners rather than from that of successful candidates. Most of them are too long and not always user-friendly, while their approach is, more often than not, too scientific to be accessible to the average candidate. It is with these considerations in mind that the author, an average doctoral candidate who wrote his PhD thesis while working full-time, submitting his written work for examination within 24 months of becoming registered as a research student in one of the UK's top Law Schools, set out to write this book, which is, uniquely, written from a student's perspective. What makes of this work an original contribution is not the novelty of the topic addressed in it but, rather, its brevity, its practical approach, its simplicity, the background of its author (a recent, successful PhD candidate) and the motivation of its author: to help candidates complete their PhD thesis in under three years, as the author of this book did. This short book contains a wealth of practical advice and guidance on the issues involved in conceptualizing, organizing and writing your doctoral thesis so that you can increase your chances of surviving the ordeal of PhD thesis writing with the least amount of pain and with the minimum investment in terms of the time and effort spent pursuing your objective.

Authoring a PhD Apr 25 2022 This engaging and highly regarded book takes readers through the key stages of their PhD research journey, from the initial ideas through to successful completion and publication. It gives helpful guidance on forming research questions, organising ideas, pulling together a final draft, handling the viva and getting published. Each chapter contains a wealth of practical suggestions and tips for readers to try out and adapt to their own research needs and disciplinary style. This text will be essential reading for PhD students and their supervisors in humanities, arts, social sciences, business, law, health and related disciplines.

Doing Research in Applied Linguistics May 15 2021 *Doing Research in Applied Linguistics: Realities, dilemmas, and solutions* provides insight and guidance for those undertaking research, and shows the reader how to deal with the challenges of this research involving real people in real settings. Featuring over twenty chapters by experienced and up-and-coming researchers from around the world, this book: outlines the steps involved in solving the problem and completing a successful, and publishable, project; provides case studies of obstacles faced at each stage of research, from preliminary planning to report writing; addresses issues of validity and reliability during data collection and analysis; discusses ethical issues in research dealing with vulnerable groups including children, refugees, and students; includes examples from longitudinal studies, and both qualitative and quantitative research. *Doing Research in Applied Linguistics* is essential reading for students studying research methods, or for those embarking on their first research project in applied linguistics or language education.

Getting the Most Out of the Research Experience Nov 28 2019 'The book gives a comprehensive overview of what research and the research experience encompass....This book

makes an interesting read for everyone who has carried out qualitative research or is planning to do so in the future. It is well-written, and very clearly structured' - Social Research Association While each research situation is different and no book can fully prepare the researcher for what they experience - this book provides a guide to what may be expected. Brian Roberts takes the researcher through the research process, answering the practical and subjective questions anyone will face: - entering the field and finding the right research topic - emotional and identity issues of research - overcoming writing and research 'blocks' - getting your research into reports, articles and books - reactions to research and how to handle experiences of rejection - and the questions every researcher should ask: What do I get from research, and what next? Loaded with advice on everything from organizing interpretations to coping with stress, this book is a must-read for students of all levels across the social sciences who are about to enter the research field.

From Paper to Platform: Publishing, Intellectual Property and the Digital Revolution. May

03 2020 Supporting the development of a national book and reading culture through local professional writers and publishers requires an understanding of the way this sector of the creative economy works and how it is affected by the digital revolution. This publication is intended to help policymakers, particularly those in countries that are interested in promoting local publishing, to understand the publishing industry better and to understand how copyright and other policies affect the way books are being created, published and consumed.

Researching and Writing Differently Jun 03 2020 In a neoliberal academia dominated by masculine ideals of measurement and performance, it is becoming more important than ever to develop alternative ways of researching and writing. This powerful new book gives voice to non-conforming narratives, suggesting innovative, messy and nuanced ways of organizing the reading and writing of scholarship in management and organization studies. In doing so it spotlights how different methods and approaches can represent voices of inequality and reveal previously silenced topics. Informed by feminist and critical perspectives, this will be an invaluable resource for current and future scholars in management and organization studies and other social sciences.

Mastering Your PhD May 27 2022 This bestselling book guides PhD students through their graduate years and beyond. Filled with practical advice on getting started, communicating with your supervisor, staying the course, and planning for the future, this book is an indispensable guide for graduate students who need that extra bit of help getting started and making it through. Who should read this book? Any student currently in, or curious about, a PhD programme, be it in the physical and life sciences, engineering, computer science, math, medicine, or the humanities — this book tackles the obstacles and hurdles that almost all PhD students face during their doctoral training. Whether you're at the very beginning of your research, close to the end, or just feeling frustrated and stuck at any point in between...it's never too early — or too late — to focus on your success! This third edition contains a variety of new material, including additional chapters and advice on how to make the most of remote learning, collaboration, and communication tools, as well as updated material on your next career step once you have your coveted doctoral degree in hand. Some of the material in the third edition appeared as part of a monthly column on the ScienceCareers website.

Passionate Publishers Aug 25 2019 *Passionate Publishers* traces the lives of the German Jewish refugee-émigré founders of the Black Star photo agency—Ernest Mayer, Kurt Safranski, and Kurt Kornfeld—whose expertise helped ignite a revolution in photojournalism. The first half of the book lays the groundwork for understanding how Black Star's founders could play such a key role in photojournalism. The author reconstructs their history in Germany before and during World War I and details their accomplishments in Berlin's dynamic Weimar-era publishing industry. The journey into exile of Safranski, Mayer, and Kornfeld, their influence on the editors of *Life*, the first decade of Black Star, and the most notable post-World War II experiences of the photo agency's founders are the focus of the second half of the book. Family and governmental archives provide extensive new information about the three men and reveal harrowing investigations by J. Edgar Hoover's FBI, which believed Black Star's founders to be spies or agents of a foreign government. The author argues that the refugee-émigrés successfully contested the never substantiated allegations on account of their strong views relating to the freedom of the press and the malevolence of discrimination on the basis of race, religion, or national origin.

How to Succeed as a Scientist Aug 06 2020 This unique, practical guide for postdoctoral researchers and graduate students explains how to build and perfect the necessary research tools and working skills to build a career in academia and beyond. It is based on successful training workshops run by the authors: first, it describes the tools needed for independent research, from writing papers to applying for academic jobs; it then introduces skills to thrive in a new job, including managing and interacting with others, designing a taught course and giving a good lecture; and it concludes with a section on managing your career, from how to manage stress to understanding the higher education system. Packed with helpful features encouraging readers to apply the theory to their individual situation, the book is also illustrated throughout with real-world case studies to enable readers to learn from others' experience. It is a vital handbook for everyone seeking to make a successful

scientific career.

Fieldwork in Educational Settings Jul 17 2021 Extensively revised and updated, this new edition of *Fieldwork in Educational Settings* will be welcomed by researchers and academics in education and the social sciences. Embracing both sociological and anthropological approaches to qualitative research, the book covers education inside and beyond schools. It emphasises writing up ethnographic research and getting the project finished, and is packed with examples from research in progress. This new edition brings the original text right up to date for new researchers. There is an additional chapter on computer software for data handling and attention is given to the implications of postmodernism for writing up research. The examples given are taken from the latest research, replacing those from the first edition. This is an indispensable handbook by an author whose work on this subject is widely recognised as being an essential resource for the researcher in education.

Publishing from Your PhD Nov 20 2021 There is consistent pressure on all academics to publish, publish, publish. But not unless they have been awarded their PhD - considered by most to be the starting step of an academic career. So while the pressure is on to obtain the title, and then obtain a permanent position, and then publish journal articles, there is little support available to researchers in the nascent stage of their careers. *Publishing from Your PhD* precisely focuses on providing early career researchers with emotional and collegial support that is often not available in academe. It seeks to dispel nepotistic notions of superiority that places Professors and such on a pedestal. It specifically clarifies the difficulty in having written the PhD thesis and then rewriting it to suit the genre of journal articles. It does not deal with the 'how' of academic writing in general. This book endeavours to shed light on the path one must take to navigate the jungles of academia. This is an untrodden path which is unique to every researcher - especially those who employ abstract or critical theories in their research - and each journey through the jungle is different. However, because there is little literature about this embryonic journey, this book illuminates the processes and difficulties of publishing in journals and culling one's finely honed thesis into small chunks - a difficult task to which few admit.

Prepare, Succeed, Advance Apr 01 2020 What if you had a guidebook that you could turn to at each stage of your academic journey to help you navigate through the process of getting a PhD in Biblical Studies and succeeding in the academic world? *Prepare, Succeed, Advance* is precisely intended to fill that need. From theory to practice, you will find discussions and answers to the most pertinent and pressing questions that prospective and current doctoral students are faced with. Alongside the questions about the process, there are also smaller matters. This guidebook tackles all of these questions and many more in three parts: *Prepare* focuses on getting into a PhD program; *Succeed* guides you through the doctoral program, especially the writing of the dissertation; and *Advance* treats issues that relate to success in the academic world.

Befreit Apr 13 2021 Von den Bergen Idahos nach Cambridge - der unwahrscheinliche »Bildungsweg« der Tara Westover. Tara Westover ist 17 Jahre alt, als sie zum ersten Mal eine Schulklasse betritt. Zehn Jahre später kann sie eine beeindruckende akademische Laufbahn vorweisen. Aufgewachsen im ländlichen Amerika, befreit sie sich aus einer ärmlichen, archaischen und von Paranoia und Gewalt geprägten Welt durch - Bildung, durch die Aneignung von Wissen, das ihr so lange vorenthalten worden war. Die Berge Idahos sind Taras Heimat, sie lebt als Kind im Einklang mit der grandiosen Natur, mit dem Wechsel der Jahreszeiten - und mit den Gesetzen, die ihr Vater aufstellt. Er ist ein fundamentalistischer Mormone, vom baldigen Ende der Welt überzeugt und voller Misstrauen gegenüber dem Staat, von dem er sich verfolgt sieht. Tara und ihre Geschwister gehen nicht zur Schule, sie haben keine Geburtsurkunden, und ein Arzt wird selbst bei fürchterlichsten Verletzungen nicht gerufen. Und die kommen häufig vor, denn die Kinder müssen bei der schweren Arbeit auf Vaters Schrottplatz helfen, um über die Runden zu kommen. Taras Mutter, die einzige Hebamme in der Gegend, heilt die Wunden mit ihren Kräutern. Nichts ist dieser Welt ferner als Bildung. Und doch findet Tara die Kraft, sich auf die Aufnahmeprüfung fürs College vorzubereiten, auch wenn sie quasi bei null anfangen muss ... Wie Tara Westover sich aus dieser

Welt befreit, überhaupt erst einmal ein Bewusstsein von sich selbst entwickelt, um den schmerzhaften Abnabelungsprozess von ihrer Familie bewältigen zu können, das beschreibt sie in diesem ergreifenden und wunderbar poetischen Buch. » Befreit wirft ein Licht auf einen Teil unseres Landes, den wir zu oft übersehen. Tara Westovers eindringliche Erzählung — davon, einen Platz für sich selbst in der Welt zu finden, ohne die Verbindung zu ihrer Familie und ihrer geliebten Heimat zu verlieren — verdient es, weithin gelesen zu werden.« J.D. Vance Autor der »Hillbilly-Elegie«
Writing about Quantitative Research in Applied Linguistics Jan 29 2020 With increasing pressure on academics and graduate students to publish in peer reviewed journals, this book offers a much-needed guide to writing about and publishing quantitative research in applied linguistics. With annotated examples and useful resources, this book will be indispensable to graduate students and seasoned researchers alike.

A Self-fulfilling Prophecy Sep 06 2020 To date, non-medical researchers, particularly those working in nursing and allied health, have suffered from a general lack of good, strategic advice on how to build their careers. Designed to assist readers in building their careers, *A Self-fulfilling Prophecy: Building a Successful Career in Health Research*, is a fascinating insight into author Simon Stewart's, career as a health researcher. Using his unique experiences as a basis for the book, Stewart helps identify and overcome the many different obstacles of building an effective career framework. The book breaks down the key to a successful career in health research, through a systematic analysis of how you can improve your curriculum vitae and positively influence external factors that will determine the eventual success of your career. PhD candidates and Post-Doctoral Fellows provide insights into how they have developed their own research careers, thus providing evidence that it is possible to achieve something substantive if you are able to think and judge your career in a critical manner. *A Self-fulfilling Prophecy: Building a Successful Career in Health Research* offers guidance on the following issues: How to choose an attractive research topic How to benchmark yourself against peer competitors How to compose a competitive research grant application How to improve your overall skills as a health research How to break the mould and stand out as a health researcher This book will be a useful and informative read for anyone who is starting a career in both non-medical and medical health research or for readers who are looking for direction and inspiration in their existing career.

Getting a PhD in Law Sep 30 2022 *Getting a PhD in Law* is a unique guide to obtaining the degree of Doctor of Philosophy of Law in the UK. While there is a wide range of study guides for PhD students in the social sciences and other science-based disciplines, there is very little information available on the process of obtaining a PhD in law. Research degrees in law share some attributes with those in related disciplines such as the humanities and social sciences. However, legal methodology and the place of the PhD in law in the young lawyer's career create unique challenges that have not been addressed by existing guides. *Getting a PhD in Law* fills this clear gap in the market, providing an accessible guide to the PhD process from topic selection to thesis publication. This readable and informative guide draws on interviews and case studies with PhD students, supervisors and examiners. *Getting a PhD in Law* will be essential reading for the growing numbers of PhD students in the UK's many law schools—and those internationally who wish to learn from UK best practice.

From Dissertation to Book Dec 22 2021 When a dissertation crosses my desk, I usually want to grab it by its metaphorical lapels and give it a good shake. "You know something!" I would say if it could hear me. "Now tell it to us in language we can understand!" Since its publication in 2005, *From Dissertation to Book* has helped thousands of young academic authors get their books beyond the thesis committee and into the hands of interested publishers and general readers. Now revised and updated to reflect the evolution of scholarly publishing, this edition includes a new chapter arguing that the future of academic writing is in the hands of young scholars who must create work that meets the broader expectations of readers rather than the narrow requirements of academic committees. At the heart of *From Dissertation to Book* is the idea that revising the dissertation is fundamentally a process of shifting its focus from the concerns of a narrow audience—a committee or advisors—to those of a broader scholarly audience that wants writing to be both informative and

engaging. William Germano offers clear guidance on how to do this, with advice on such topics as rethinking the table of contents, taming runaway footnotes, shaping chapter length, and confronting the limitations of jargon, alongside helpful timetables for light or heavy revision. Germano draws on his years of experience in both academia and publishing to show writers how to turn a dissertation into a book that an audience will actually enjoy, whether reading on a page or a screen. Germano also acknowledges that not all dissertations can or even should become books and explores other, often overlooked, options, such as turning them into journal articles or chapters in an edited work. With clear directions, engaging examples, and an eye for the idiosyncrasies of academic writing, *From Dissertation to Book* reveals to recent PhDs the secrets of careful and thoughtful revision—a skill that will be truly invaluable as they add “author” to their curriculum vitae.

Creative Self-Publishing in the World Marketplace Dec 10 2020 by Marshall Chamberlain, author of the Ancestor Series of Sci-Tech-Mystery-Thrillers. "An indispensable companion to the *Self-Publishing Manual*."-Dan Poynter. This book explains the tools and options for effectively designing, manufacturing, distributing, and promoting any book. It reveals important resources to keep informed and find vital information; teaches how to easily create a supportive, author/self-publishing website; delineates methods for designing and implementing dynamic promotion plans; and outlines the knowledge, skills, and creative thinking necessary to take control of key publishing functions, eliminate financial risks, conserve resources, and set parameters for a purposeful writing lifestyle. <http://www.gracepublishing.org>.

Writing for Publication Aug 18 2021 *Writing for Publication* deals with a number of generic issues around academic writing (including intellectual property rights) and then considers writing refereed journal articles, books and book chapters in detail as well as other, less common, forms of publication for academics. The aim is to demystify the process and to help you to become a confident, competent, successful and published writer.

Dissertation and Research Success Oct 27 2019 It would be easier to quit. Completing a doctoral program is not easy, and trying to complete a dissertation at the end of your program when the last of your energy and motivation is hanging by a string, can seem insurmountable. So, yes, it would be easier to quit. There are even individuals out in the world who proudly use the acronym ABD (all-but-dissertation) as their terminal degree on resumes, business cards and such. But in all honesty, I can tell you what ABD really stands for: quitting. You've invested too much time, energy and money into your doctoral experience to give up. With that being said, this is not an easy journey. Finding resources and support to help you navigate through your doctoral program in the most efficient and painless way is an absolute.

Becoming a Successful Early Career Researcher Oct 20 2021 Not that long ago there were fairly clear divisions between researchers at different stages throughout their career, starting with doctoral students then progressing to postdoctoral workers and finishing with academic staff. However, more recently the term Early Career Researcher (ECR) has been introduced partly as a response to their growing importance which has been reflected by their increased respect and status shown by national, international and funding bodies. There are several common features of an ECR's job including the need to establish a professional identity and develop into an independent researcher, competing for grants and increasing one's output of research publications; this book offers proven practical advice to help ECRs kick-start a successful academic career. With advice on: Choosing research topics Making best use of a Research Supervisor/Mentor Developing your research writing Getting published: journals and books Writing a research grant/fellowship Becoming a supervisor Becoming a teacher, and Developing your career This guide will help academics at the start of their career no matter what discipline they are engaged in... Arts, Humanities, Sciences or Social Sciences. For example, in sciences and engineering, ECRs are commonly part of a large research team and often have to work in collaborative groups; requiring strong interpersonal skills but can lead to tension in the interaction with one's supervisor or mentor. In contrast, in the arts and humanities and perhaps the social sciences, an ECR is more likely to be an independent scholar with a requirement to work alone, leading to a different type of relationship (but not necessarily any less stressful) with one's supervisor or mentor. Using case studies from across the subject areas to illustrate key points and give suitable examples this vital guide will help all early career academics.

Gupta shares his own publishing autobiography, offering the chance for aspiring writers to learn from the ups and downs of his experiences.

The SCOPUS Diaries and the (il)logics of Academic Survival Jan 23 2022 Now that academics are required to be teachers, managers, media catalyzers, analysts, fundraisers, and social media animals: How do you strike a good balance between what is expected from you and what you want to do? What conferences to attend? How to find the money to go there? Is it worth it to act as a peer reviewer? What publishers are best to target? Is publishing a chapter in an edited book worth the work? This book is intended to help scholars to design and think strategically about their own career. Beginning with "How to get published in good journals," it explores a number of questions that most academics encounter at various stages of their careers.
