Spon's Architects' and Builders' Price Book 2004 is the most detailed, professionally relevant source of construction price information currently available anywhere. With competition growing fiercer throughout the industry and with increasing pressure to obtain a 'competitive advantage', the A and B's unique tender index will be

more valuable than ever before. This is the only price book that publishes details of its cost base in such a way that it can be adjusted to allow for market conditions that affect building prices. A separate minor works section on coloured paper covers contracts of around £65,000 in value. The A and B comes with a 'free' CDROM that enables the reader to view the entire book on screen, cut and paste prices into other tender documents, export to other major packages, perform simple calculations, index search, produce estimate and tender documents and adjust rates and data. This complete package now means that Spon's Architects' and Builders' Price Book 2004 is now better than ever and is a resource that no building firm, surveyor or architect should be without. New features in this 129th edition include: an easier-to-read format; information on, and incorporating, the new CICJ three year wage agreement, effective from Monday, 30th June 2003. It

also includes additional items for: hot and cold water piping systems; additional building boards and external wall cladding; further aluminium systems curtain walling; western red cedar external wall cladding; fire retardant steel beams; metal and glazed balustrading; sarnafil roofing and acoustic sliding partitions. Coming out of recession... so how is this affecting the construction market? Spn's Mechanical and Electrical Services Price Book 2015 continues to be the most comprehensive and best annual services engineering price book currently available, providing detailed pricing information across the full range of mechanical and electrical services, together with higher-level costs for a diverse range of systems and different building applications. Use the access code inside the front cover of the book to get set up with internet access to this 2015 edition until the end of December 2015. Spn's Online delivers a versatile and powerful online data viewing

package. The book now uses a combination of NRM1 and NRM2 as the measurement standards. This year we provide a new detailed engineering feature on RICS Ska ratings, and add cost sections for LED lighting, PV panels and solar thermal energy. The book also gives the usual market update of labour rates and daywork rates, material costs and prices for measured works, and all-in-rates and elemental rates in the Approximate Estimating section. With tender prices rising slightly, looking at price lists is not enough - you need SPON'S ARCHITECTS' AND BUILDERS' PRICE BOOK 2011 to get a competitive edge. SPON'S ARCHITECTS' AND BUILDERS' PRICE BOOK, compiled by Davis Langdon, provides the most accurate, detailed and professionally relevant construction price information currently available for Who hasn't experienced this: you simply can't get past the new construction site without watching the gigantic machines at work. Building

such giants fully functional in the small scale of 1:87 - also known as H0 on the railway - is at least as fascinating.

Alexander Aufschläger has devoted himself entirely to construction machinery in microformat and shows you in this book how to successfully recreate such models. Whether excavator, tipper, wheel loader or bulldozer - here you will learn how to realise these functional models perfectly.

Ensure amazement in the eyes of onlookers when you

demonstrate giants in small scale! From the content: •

Construction machinery - the salt in the soup • Basics and technical requirements •

Menck M154LC crawler excavator • Komatsu PC490 crawler excavator with sound •

Wheel loader Liebherr 580 • Bulk transport with MAN

tipper truck • A bulldozer is needed • Heavy transporter with drop deck trailer •

Interchangeable loader • Liebherr LTM1045 telescopic

crane • Additional functions • Additions to the excavator's

daily routine • More Sound

Coming out of recession... so how is this affecting the construction market? Spon's Mechanical and Electrical Services Price Book 2015 continues to be the most comprehensive and best annual services engineering price book currently available, providing detailed pricing information across the full range of mechanical and electrical services, together with higher-level costs for a diverse range of systems and different building applications. Use the access code inside the front cover of the book to get set up with internet access to this 2015 edition until the end of December 2015. Spon's Online delivers a versatile and powerful online data viewing package. The book now uses a combination of NRM1 and NRM2 as the measurement standards. This year we provide a new detailed engineering feature on RICS Ska ratings, and add cost sections for LED lighting, PV panels and solar thermal energy. The book also gives the usual market update of labour

rates and daywork rates, material costs and prices for measured works, and all-in-rates and elemental rates in the Approximate Estimating section. Roadwork: Theory and Practice, now in its sixth edition, gives the essential information needed by every road worker, highway technician, incorporated, graduate or chartered engineer, not only by explaining the theory of road construction and its associated activities, but by illustrating its application with practical working methods that are in use in everyday engineering practice. As such, it successfully bridges the gap so often found between civil engineering theory and the day-to-day work of a highways engineer. The authors have drawn from a lifetime of experience in the construction industry and included current design and construction practices. Strong output demand over the last year has stretched the industry. The issues are being felt by all firms across the delivery chain

- from clients to subcontractors. Capacity constraints almost always manifest themselves in prices. Increased tender prices have become the primary symptom of these supply-side issues. The main driver of new work output growth over the last 18 months is slowing. Both the public and private housing sectors are quickly reversing all of their recent upward trends when looked at on a yearly growth basis. The counterpoint to this is that the yearly growth figures are still positive, meaning that new work continues to flow. SPON'S ARCHITECTS' AND BUILDERS' PRICE BOOK 2016, compiled by AECOM, still provides the most accurate, detailed and professionally relevant construction price information for the UK. Its unique Tender Index, updated through the year, gives an ongoing reality check and allows you to adjust for changing market conditions. Although it suits a wide range of project sizes, this is the only price book which sets out a

detailed cost base for contracts exceeding £3,500,000 in value. Use the access code inside the front cover of the book to get set up with internet access to this 2016 edition until the end of December 2016. We now provide SPON'S Online, a versatile and powerful online data viewing package -- online or offline on your PC/Mac, smartphone or tablet. You can browse and search the content across all the price books you own, make notes and highlights and share these notes with other users. Major changes have been made to this 141st edition: For the first time, plant prices have been separated out in the measured works section. As well as an overhaul of prices, several new items have been added, including: Two new cost models for a stand-alone private patient ward within a larger hospital complex, and an extra care home An expanded range of ACO drainage channels Precast concrete 'Perfect Manholes' by CPM Shower-wall laminated panelling walling An expanded range of architectural pre-

finished blockwork ... along with the standard features you have come to expect from SPON'S ARCHITECTS' AND BUILDERS' PRICE BOOK: 20,000 prices for the most frequently specified items, the majority with labour constants and detailed build-ups. Hundreds of alternative materials prices for the more unusual items. Detailed guidance on wage rates, daywork, cost limits and allowances, property insurance and professional fees, plus useful formulae, design criteria and trade association addresses. Updated, free of charge, two or three times a year - see inside for registration details. Updates are available online at [www.pricebooks.co.uk](http://www.pricebooks.co.uk) Other titles in the Spon's Price Book Series: SPON'S MECHANICAL AND ELECTRICAL SERVICES PRICE BOOK 2016 SPON'S CIVIL ENGINEERING AND HIGHWAY WORKS PRICE BOOK 2016 SPON'S EXTERNAL WORKS AND LANDSCAPE PRICE BOOK 2016 Spon's Mechanical and

Electrical Services Price Book 2012 continues to be the most comprehensive and best annual services engineering price book currently available. It provides detailed pricing information across the full range of mechanical and electrical services, together with higher-level costs for a diverse range of systems and different building applications. This year's book provides a market update of labour rates and daywork rates, material costs/ prices for measured works, and all-in-rates and elemental rates in the Approximate Estimating section. Engineering features have been revised in line with new legislation and regs on Part L, CO2 targets and renewables. Feed-In Tariffs have been overhauled and a new feature has been added for infrastructure. All the standard features you have come to expect from Spon's Mechanical and Electrical Services Price Book, considered essential for today's services cost professional, are also included: detailed materials prices,

labour constants, labour costs and measured work prices for mechanical and electrical works, from above ground drainage to automatic transfer switches, and circuit breakers to sprinkler systems an extensive Approximate Estimating section for quick, rule-of-thumb pricing of mechanical or electrical installations, together with elemental services costs for different types and standard of buildings full details of wage rates, daywork and cost indices on a national and Central London basis an overhauled index and guidance notes Updated, free of charge, two or three times a year - see inside for registration details. Updates are available online at [www.pricebooks.co.uk](http://www.pricebooks.co.uk). "This colossal reference book documents the timeless urge to reshape the world, and the machines used to do so from the 1088's to today. From utility tractors and loaders up to the largest diggers and bulldozers, every piece of heavy equipment is listed here by model and manufacturer,

making this the most exhaustive book on the world's most hard-working vehicles and machines"--Publisher's description. This book examines the dynamics of the sociocultural processes inherent in mergers and acquisitions, and draws implications for post-merger integration management. This operating guide is aimed at sales directors, sales managers, dealer development managers, entrepreneurs who need support in the organization of their distribution networks, and also consultants who require applied tools for the management of a retail business. The book, offering a structured framework for developing and controlling a dealer sales network, is the result of industry-specific technical studies and, above all, the experience gained in the field during my career at CNH (Case New Holland) as a dealer development manager. It also includes many practical examples, charts and, whenever possible,

benchmarks relevant to the Construction Equipment industry. Hence, some of the contents of this book are specifically related to the above-mentioned industry, but the whole methodology is obviously applicable to Agriculture, Truck and Automotive sectors too. A range of factors are all combining to propel input cost inflation. Higher international logistics costs, returning demand from industry workload, and higher global metals prices are some of the ingredients to quicker building cost inflation. Whilst some EU materials exporters to the UK are adjusting to Brexit, other EU exporters — initially smaller or specialist firms hit proportionally harder — are now deciding not to supply the UK at all, because the additional red tape involved makes it not commercially viable. If this trend replicates across the whole EU to UK supply chain, visible disruption and higher prices are likely until other sources of supply begin to increase in volume

and step in to address these supply issues. Among other exporters continuing to supply the UK, significant price increases are being applied to cover the permanent Brexit non-tariff barriers and additional administrative processes. SPON'S ARCHITECTS' AND BUILDERS' PRICE BOOK 2022, compiled by AECOM, still provides the most accurate, detailed and professionally relevant construction price information for the UK. Its unique Tender Index, updated through the year (2015 = 100), gives an ongoing reality check and allows you to adjust for changing market conditions. Although it suits a wide range of project sizes, this is the only price book which sets out a detailed cost base for contracts exceeding £4,000,000 in value. Use the access code inside the front cover of the book to get set up with an ebook of this 2022 edition on the VitalSource® Bookshelf platform, available for access and use until the end of December 2022. As well as an

overhaul of prices, 145 new items have been added including: Two new Cost Models for school refurbishment Primary Healthcare Fit-Out Plus, expanded range of cast iron rainwater goods expanded range of matwells expanded range of vinyl floor finishes Ecotherm insulation Along with the standard features you have come to expect from SPON'S ARCHITECTS' AND BUILDERS' PRICE BOOK: 20,000 prices for the most frequently specified items, the majority with labour constants and detailed build-ups Hundreds of alternative materials prices for the more unusual items Detailed guidance on wage rates, daywork, cost limits and allowances, property insurance and professional fees, plus useful formulae, design criteria and trade association addresses Updates, free of charge, twice a year – see inside for registration details. Updates are available online at [www.pricebooks.co.uk](http://www.pricebooks.co.uk) Looks inside eleven earth mover

machines and takes apart and labels the components of each while describing their functions Japanese manufacturing investment in the European Community has grown dramatically over the last twenty years. At first, instances of investment were few, concentrated in a small number of industrial sectors. But since the mid-1980's there has been a surge of investment in a much wider range of industries. This volume details the growth of Japanese manufacturing investment in Europe in fourteen industrial sectors. The impact of Japanese competition and direct investment on European industries is considered in the context of the emergence of the three major trading blocs: the United States, Japan and the EC. Roger Strange concludes by making important policy recommendations, and arguing for the need for a new theoretical framework for assessing the political economy of foreign direct investment. Conflicting signals! Public sector cutbacks, soaring input

costs, and a mixed picture all round. You need SPON'S ARCHITECTS' AND BUILDERS' PRICE BOOK 2013 to get the detail right. SPON'S A&B PRICE BOOK, compiled by Davis Langdon, provides the most accurate, detailed and professionally relevant construction price information currently available for the UK. Its unique Tender Index, updated through the year, provides an ongoing reality check and adjustment for changing market conditions. This is the only price book which sets out a detailed cost base for contracts exceeding £3,500,000 in value. Use the access code inside the back cover of the book to get set up with internet access to this 2013 edition until the end of December 2013. We now provide Spon's Online, a versatile and powerful online data viewing package, which replaces the estimating software and ebook of recent years and which is no longer supplied with the hard copy book. Major changes have been made to this 138th edition: As

well as an overhaul of prices, SPON'S ARCHITECTS' AND BUILDERS' PRICE BOOK 2013 includes: A new cost model for an office fit out. New measured works have been introduced: Concrete canvas, Dreadnought Handformed roof tiles, UPVC external doors, Thermalite paint grade concrete blocks, EPS/PIR hybrid roof insulation, Omnicore composite flooring systems, sheep wool insulation, Kingspan TEK cladding panels, 750 & 900 dia CFA piling, Lignacite architectural blocks. More has been given for cork flooring and much else has been changed throughout. ...along with the standard features you have come to expect from SPON'S ARCHITECTS' AND BUILDERS' PRICE BOOK: 20,000 prices for the most frequently specified items, the majority with labour constants and detailed build-ups Hundreds of alternative materials prices for the more unusual items Detailed guidance on wage rates, daywork, cost limits and allowances, property insurance

and professional fees, plus useful formulae, design criteria and trade association addresses Updated, free of charge, two or three times a year - see inside for registration details. Along with the following new and significantly developed items: - Tuneable white luminaires - Wireless lighting control - PV cells - Battery storage systems All the standard features you have come to expect from SPON'S

MECHANICAL AND ELECTRICAL SERVICES PRICE BOOK are also included, considered essential for today's services cost professional: • detailed materials prices, labour constants, labour costs and measured work prices for mechanical and electrical works, from above ground drainage to automatic transfer switches, and circuit breakers to sprinkler systems • an extensive Approximate Estimating section for quick, rule-of-thumb pricing of mechanical or electrical installations, together with elemental services costs for different types and standard of buildings • full details of wage rates, daywork and cost indices on a national and Central London basis. • an overhauled index and guidance notes • updates, free of charge, two or three times a year - see inside for registration details. Updates are available online at [www.pricebooks.co.uk](http://www.pricebooks.co.uk) The definitive M&E price book with additions to the measured works, updates to approximate estimating and new

engineering features. Spon's Mechanical and Electrical Services Price Book 2021 continues to be the most comprehensive and best annual services engineering price book currently available, providing detailed pricing information across the full range of mechanical and electrical services, together with higher-level costs for a diverse range of systems and different building applications. Use the access code inside the front cover of the book to get set up with an ebook of this 2021 edition on the VitalSource® Bookshelf platform, available for access and use until the end of December 2021. In this year's book:

- An overhaul of the uninterruptible power supply section, and revised costs for air source heat pumps
- new items including:
  - HDPE pipe for above ground drainage systems
  - fire protection mist systems
  - electric vehicle chargers
- new engineering features: data centre cooling, later living developments, residential heat pumps, large

scale heat pumps, and local energy networks

- Articles on intelligent buildings to boost productivity efficiency and well being, ways data analytics is transforming BIM, digital delivery and the design process, and coronavirus and the future of work

All the standard features you have come to expect from Spon's Mechanical and Electrical Services Price Book are also included, considered essential for today's services cost professional:

- detailed materials prices, labour constants, labour costs and measured work prices for mechanical and electrical works, from above ground drainage to automatic transfer switches, and circuit breakers to sprinkler systems
- an extensive Approximate Estimating section for quick, rule-of-thumb pricing of mechanical or electrical installations, together with elemental services costs for different types and standard of buildings
- full details of wage rates, daywork and cost indices on a national and Central

London basis. • an overhauled index and guidance notes • updates, free of charge, twice a year – see inside for registration details. Updates are available online at [www.pricebooks.co.uk](http://www.pricebooks.co.uk) Traces the history of earth moving equipment, looks at cable excavators, mining shovels and draglines, walking draglines, and hydraulic backhoes, and discusses the manufacture of large excavation equipment

The 2016 International Conference on Mechanics and Architectural Design (MAD2016) were held in Suzhou, Jiangsu, China, 14 - 15 May 2016. The main objective of this conference is to provide a platform for researchers, academics and industrial professionals to present their research findings in the fields of Architecture, Mechanical and Civil Engineering. This proceedings consists of 90 articles selected after peer-review. It consists of 6 articles in Mechanics, and 84 articles covering research and development in Civil Engineering; addressing issues

in building architecture and structure. Most of these projects were funded by the Chinese research agencies. Spon's Architects' and Builders' Price Book 2004 is the most detailed, professionally relevant source of construction price information currently available anywhere. With competition growing fiercer throughout the industry and with increasing pressure to obtain a 'competitive advantage', the A and B's unique tender index will be more valuable than UK construction supply chain firms face an array of risks going into 2021 as fallout from the COVID-19 crisis – not least the effect of social distancing rules on site productivity. But underlying construction demand remains broadly in place for the expected medium-term. SPON'S ARCHITECTS' AND BUILDERS' PRICE BOOK 2021, compiled by AECOM, still provides the most accurate, detailed and professionally relevant construction price information for the UK. Its unique Tender

Index , updated through the year (2015 = 100), gives an ongoing reality check and allows you to adjust for changing market conditions. Although it suits a wide range of project sizes, this is the only price book which sets out a detailed cost base for contracts exceeding £4,000,000 in value. Use the access code inside the front cover of the book to get set up with an ebook of this 2021 edition on the VitalSource® Bookshelf platform, available for access and use until the end of December 2021. As well as an overhaul of prices, several new items have been added, including: a London fringe office cost model a higher education refurbishment cost model Pecalil® permanent formwork and an expanded range of cast iron rainwater products along with the standard features you have come to expect from SPON'S ARCHITECTS' AND BUILDERS' PRICE BOOK: 20,000 prices for the most frequently specified items, the majority with labour constants

and detailed build-ups  
Hundreds of alternative materials prices for the more unusual items Detailed guidance on wage rates, daywork, cost limits and allowances, property insurance and professional fees, plus useful formulae, design criteria and trade association addresses Updates, free of charge, twice a year - see inside for registration details. Updates are available online at [www.pricebooks.co.uk](http://www.pricebooks.co.uk) Brick by Brick Brilliance LEGO bricks are the building blocks of childhood. Yet they are far from child's play. LEGO sets are fast becoming a hot commodity with collectors worldwide for fun and profit. Abundantly visual, informative and detailed, The Ultimate Guide to Collectible LEGO Sets is the definitive reference to more than 2,000 of the most collectible sets on the secondary market, illustrating the incredible value of LEGO bricks, not only from an entertainment and educational standpoint, but also as an investment. Consider a Star

Wars Ultimate Collector Series Millennium Falcon, which sold at retail for \$500, is now selling for more than \$3,500 on the secondary market. The Ultimate Guide to Collectible LEGO Sets features:

- More than 25 top themes, including Advanced Models, Batman, Ideas/Cuusoo, Star Wars UCS and non-UCS sets, Technic, Trains, and Vintage
- Up-to-date secondary market prices for more than 2,000 new and used sets from 2000 to present
- More than 300 full-color photos of sets in their boxes, and built models
- Tips on reselling, flipping, and investing

The Ultimate Guide to Collectible LEGO Sets is your brick-by-brick guide to a world of imagination and discovery. An essential reference for everybody concerned with the calculation of costs of mechanical and electrical works. Cost Engineer

The construction sector is improving. Will skills shortages derail the upturn? Spon's Mechanical and Electrical Services Price Book 2016

Construction prices rose over

the last year by 5%, according to AECOM's tender price index, with construction price inflation continuing to run above the long-run average. The main drivers are rising input costs. Producer price indices have moved up at a clip in recent quarters, with sharp increases in prices for materials and fuels consumed by UK manufacturers. Demand- and supply-side factors make the probability of short-term price falls very slim. SPON'S ARCHITECTS' AND BUILDERS' PRICE BOOK 2018, compiled by AECOM, still provides the most accurate, detailed and professionally relevant construction price information for the UK. Its unique Tender Index, updated through the year, gives an ongoing reality check and allows you to adjust for changing market conditions. Although it suits a wide range of project sizes, this is the only price book which sets out a detailed cost base for contracts exceeding £4,000,000 in value. Use the access code inside the front cover of the book to get

set up with a VitalSource® ebook of this 2018 edition. This versatile and powerful online data viewing package is available for use until the end of December 2018. Major changes have been made to this 143rd edition: New Cost Models for a retail distribution unit, a palliative care unit, and a cinema As well as an overhaul of prices, several new items have been added, including: An expanded range of beam & block flooring Rainwater harvesting – with a precast concrete tank A precast concrete flow attenuation system Precast concrete communication boxes ... along with the standard features you have come to expect from SPON'S ARCHITECTS' AND BUILDERS' PRICE BOOK: 20,000 prices for the most frequently specified items, the majority with labour constants and detailed build-ups. Hundreds of alternative materials prices for the more unusual items. Detailed guidance on wage rates, daywork, cost limits and

allowances, property insurance and professional fees, plus useful formulae, design criteria and trade association addresses. Updates, free of charge, two or three times a year – see inside for registration details. Updates are available online at [www.pricebooks.co.uk](http://www.pricebooks.co.uk) UK construction shows its underlying strength. Tender prices have risen strongly since last year's book was compiled - - increasing by around 8%, and at an annualised rate of close to 10% in the last half year. Spon's Architects' and Builders' Price Book 2017, compiled by AECOM, still provides the most accurate, detailed and professionally relevant construction price information for the UK. Its unique Tender Index, updated through the year, gives an ongoing reality check and allows you to adjust for changing market conditions. Although it suits a wide range of project sizes, this is the only price book which sets out a detailed cost base for contracts exceeding £4,000,000 in value.

Use the access code inside the front cover of the book to get set up with internet access to this 2017 edition until the end of December 2017. We now provide a VitalSource® ebook, giving a versatile and powerful online data viewing package. Major changes have been made to this 142nd edition: Major revision and simplification has been made to the in situ concrete section, and plasterboard linings and partitions sections have been heavily revised and developed. New Cost Models are included: a laboratory, a car park and an updated London Office. More plant prices have been separated out in the measured works section. As well as an overhaul of prices, several new items have been added, including: Foamglas insulation Carlite waterproof concrete and an expanded range of stone flooring ... along with the standard features you have come to expect from Spon's A&B: 20,000 prices for the most frequently specified items, the majority with labour constants and detailed build-

ups. Hundreds of alternative materials prices for the more unusual items. Detailed guidance on wage rates, daywork, cost limits and allowances, property insurance and professional fees, plus useful formulae, design criteria and trade association addresses. Updated, free of charge, two or three times a year - see inside for registration details. Updates are available online at [www.pricebooks.co.uk](http://www.pricebooks.co.uk) The definitive M&E price book with additions to the measured works, updates to approximate estimating and new engineering features. Spon's Mechanical and Electrical Services Price Book 2022 continues to be the most comprehensive and best annual services engineering price book currently available, providing detailed pricing information across the full range of mechanical and electrical services, together with higher-level costs for a diverse range of systems and different building applications. Use the access code inside the

front cover of the book to get set up with an ebook of this 2022 edition available for access and use until the end of December 2022. All the standard features you have come to expect from SPON'S are also included, considered essential for today's services cost professional: detailed materials prices, labour constants, labour costs and measured work prices for mechanical and electrical works, from above ground drainage to automatic transfer switches, and circuit breakers to sprinkler systems an extensive Approximate Estimating section for quick, rule-of-thumb pricing of mechanical or electrical installations, together with elemental services costs for different types and standard of buildings full details of wage rates, daywork and cost indices on a national and Central London basis. an overhauled index and guidance notes updates, free of charge, twice a year - see inside for registration details. Updates are available online at

[www.pricebooks.co.uk](http://www.pricebooks.co.uk) Laxton's gives you access to the most reliable and current data. All 250,000 price elements have been individually checked and updated for the 2022 edition so that your estimates are always accurate and cost competitive. Laxton's makes analytical estimating simple and straightforward by displaying a complete breakdown for all measured items under 10 separate headings, all on a single page. This shows you a complete price build-up at a glance - and gives you the option to make price adjustments wherever necessary. You can find the sections you need quickly and easily, via the special marker system on the front cover and page edges. The free CD with this price book contains Masterbill's ESTIMATOR software and fully resourced data on all the price elements in Laxton's. Not only does the CD offer fast and efficient pricing at the touch of a button, it gives details of all the resources required to do the job. Laxton's approximate

estimating section gives all in pricing for quick reference on the cost of composite items such as floors helping you calculate the cost implications of using plywood sheeting rather than softwood boarding, for example. Laxton's Basic Price section gives you a quick price on hundreds of items - from concrete work to roofing materials - to save you going through hundreds of lists from suppliers, manufacturers and building merchants. Laxton's Brand and Trade Names section lists over 12,000 brands and trade names and company addresses to help you locate specific items. Latest wage rates, fees and allowances All 250,000 price elements checked and updated Fundamentals of Mobile Heavy Equipment provides students with a thorough introduction to the diagnosis, repair, and maintenance of off-road mobile heavy equipment. With comprehensive, up-to-date coverage of the latest technology in the field, it addresses the equipment used in construction, agricultural,

forestry, and mining industries. Management of Off-highway Plant and Equipment provides a working knowledge of plant management for today's engineers, managers and students, and explains concisely and clearly the factors to be considered during investment in, and management of, construction equipment. It compares the cost of leasing with those of purchase, discusses ways of achieving optimum economic usage of plant, and covers issues of health and safety, licensing and the logistics of maintenance. SPON'S ARCHITECTS' AND BUILDERS' PRICE BOOK provides the most detailed, professionally relevant construction price information currently available for the UK. This year, for the first time, the download includes a versatile and powerful ebook.<sup>1</sup> The Preliminaries section has been re-written and based upon the 2005 JCT contract<sup>2</sup>. The new section on "This oversize picture book arranges CAT earthmovers in terms of size-a

system well suited for kids. It covers 12 machines listed in ascending order. All share the common purpose of moving the earth by lifting, pushing, digging, or scooping"--Provided by the publisher. Roadwork Theory and Practice gives the essential information needed by every road worker, highway technician, incorporated, graduate or chartered engineer, not only by explaining the theory of road construction and its associated activities, but by illustrating its application with practical working methods that are in use in everyday engineering practice. As such, it successfully bridges the gap so often found between civil engineering theory and the day-to-day work of a highways engineer. Now in its fifth edition, this classic textbook has been fully revised in line with recent changes to EU standards, legislation, terminology and specifications. The new edition now includes

end of chapter review questions and references for further reading. Students will find this text fully caters for the requirements of BTEC National and NVQ qualifications in construction, civil engineering and highways maintenance. In addition, content has been matched to the specifications of the new Higher Nationals in Civil Engineering from Edexcel. Professionals will find the new edition to be an invaluable up-to-date reference source, especially of relevance to recent graduates new to the work place. Spon's Architects' and Builders' Price Book 2012, compiled by Davis Langdon, provides the most accurate, detailed and professionally relevant construction price information currently available for the UK. Its unique Tender Index, updated through the year, provides an ongoing reality check and adjustment for changing market conditions. This is the o
