The Sami have lived for time immemorial in an area that today extends across the Kola Peninsula in Russia, northern Finland, northern Norway's coast and inland, and the northern half of Sweden. The Sami play an important role in these northern economies thanks to their use of land, their ... This book show how innovation can take place in rural areas and how the modern rural economy differs from the traditional rural economy and metropolitan areas. In addition, it offers four perspectives on modernisation and innovation in rural areas by experts. This OECD National Urban Policy Review of Colombia provides a comprehensive assessment of the country's national urban policy 'the System of Cities' and of different sectoral policies that affect urban life: transport, housing, land use, and digitalisation. Colombia has entered the 2020s facing five intertwined crises: the COVID-19 pandemic, rising levels of poverty and inequality, a wave of mass international migration, the peace process consolidation, and the climate emergency. Rural Well-being: Geography of Opportunities presents the latest iteration on this policy framework, reflecting several important changes in rural development in recent years. Fully taking into account the variety of situations characterising rural regions, the new policy framework leverages improved data and analysis while broadening the scope from economic focus to encompass the environmental and social dimensions of well-being. Poland has seen impressive growth in recent years, and yet regional disparities in economic and social outcomes remain large by OECD standards. The overall living conditions in rural communities generally remain below those of urban communities, and rural households face higher poverty rates ... OECD's Territorial Review of Canada. Analyses the key socio-economic forces at work in China's rural areas and discusses the current government strategy for rural development. This

comprehensive review of rural policy in Mexico shows that the challenges and potential of rural areas are spatially differentiated and therefore require a place-based policy approach. Urban and rural areas enjoy different and often complementary assets, and better integration between them is important for socio-economic performance. This report provides a framework to understand the changing relationships between urban and rural areas. It is focused on one approach that can enhance and better manage rural-urban relationships - the use of rural-urban partnerships. Specifically, it documents the characteristics of these partnerships and the factors that can hinder as well as enable rural-urban co-operation. Different governance approaches to manage rural-urban relationships are identified and discussed. Finally, recommendations are provided to help national, regional and local policy makers to build effective and sustainable rural-urban partnerships for better economic development. This report reviews how both national policy and regional strategies support innovation in the North of England and how these efforts could be improved. Leben, denke ich manchmal, heißt Staunen. Als die Schriftstellerin Lucy Barton längere Zeit im Krankenhaus verbringen muss, erhält sie Besuch von ihrer Mutter, die sie jahrelang nicht mehr gesehen hat. Zunächst ist sie übergelukkig. Doch mit den Gesprächen werden Erinnerungen an ihre Kindheit und Jugend wach, die sie längst hinter sich gelassen zu haben glaubte ... Der neue Roman von Elizabeth Strout ist ein psychologisches Meisterstück, zutiefst menschlich und berührend. Er erzählt die Geschichte einer Frau, die trotz aller Widrigkeiten ihren Weg geht, eine Geschichte über Mütter und Töchter und eine Geschichte über die Liebe, die, so groß sie auch sein mag, immer nur unvollkommen sein kann. Lucy Barton erzählt ihre Geschichte. Sie muss sie erzählen, weil sie auf der Suche nach der Wahrheit ist, als Schriftstellerin wie als Mensch. Und es gibt zu vieles, was ihr Leben geprägt hat und ihr immer noch keine Ruhe lässt. Das wird ihr klar, als sie wegen einer unerklärlichen, lebensbedrohenden Infektion nach einem Routineeingriff längere Zeit im Krankenhaus bleiben muss und plötzlich ihre Mutter an ihrem Bett sitzt. Ihre Mutter, die sie nicht mehr gesehen hat, seit sie ihr Zuhause in einem kleinen Kaff in Illinois verlassen hat. Während sie erschöpft und glücklich der Stimme ihrer Mutter lauscht, die ihr Geschichten von den Leuten aus ihrer Heimat erzählt und was aus ihnen geworden ist, während Mutter und Tochter ein neues Band zu formen scheinen, auch wenn sie nur schweigend aus dem Fenster auf das beleuchtete Chrysler Building gegenüber schauen, kommt alles wieder hoch: die bettelarme Kindheit, die Schwierigkeiten in der Familie, der Mangel an Zärtlichkeit und Zuneigung. Wie der Wunsch, Schriftstellerin zu werden, ihr half, ihre Ängste zu bekämpfen, wie fremd sie sich dennoch manchmal in New York vorkommt. Ihre Ehe mit einem Mann aus einem wohlbehüteten Elternhaus und die vielen Abgründe, die sich zwischen ihnen auftun, trotz des gemeinsamen Lebens und der zwei heißgeliebten Töchter ... This report looks at rural policy in Chile, examining the main trends in rural regions, policies and governance arrangements. This book is a handy reference guide to the regional policies of OECD countries and a broader analysis of trends in regional policies, based on sound, comparable information. The 38 million Indigenous peoples living across 13 OECD countries contribute to stronger regional and national economies, and have unique assets and knowledge that address global challenges such as climate change. Recently, OECD countries have promoted a new approach to regional policy. This report reviews the main dimensions of this policy shift, drawing on recent work by OECD including analysis of regional data, policy reviews and case studies. The report suggests steps Sweden can take to address its regional and rural policy challenges. It also assesses to what degree Sweden has implemented the recommendations made in the 2010 OECD Territorial Review of Sweden. This volume represents the result of almost two decades of trans-Atlantic collaborative development of a policy research paradigm, the International Comparative Rural Policy Studies program. Over this period dozens of scientists from different disciplines but with a common interest in rural issues and policy have collaboratively studied the policies in North America,

Europe, and other parts of the world. A core element of the book is the idea and practice of comparative research and analysis - what can be learned from comparisons, how and why policies vary in different contexts, and what lessons might or might not be "transferable" across borders. It provides skills for the use of comparative methods as important tools to analyze the functioning of strategies and specific policy interventions in different contexts and a holistic approach for the management of resources in rural regions. It promotes innovation as a tool to valorize endogenous resources and empower local communities and offers case studies of rural policy in specific contexts. The book largely adopts a territorial approach to rural policy. This means the book is more interested in rural regions, their people and economies, and in the policies that affect them, than in rural sectors, and sectoral policies per se. The audience of the book is by definition international and includes students attending courses in agricultural and rural policy, rural and regional studies, and natural resource management; lecturers seeking course material and case studies to present to their students in any of the courses listed above; professionals working in the field of rural policy; policy-makers and civil servants at different levels seeking tools to better understand rural policy both at the local and global scale and to better recognize and comprehend how to transfer best practices. This review examines how Morelos seeking to boost its economy, particularly through inclusive growth policies such as enhancing human capital and promoting innovation. It highlights areas of untapped potential for economic growth and suggests ways to address governance challenges. This review discusses the challenges and opportunities of German rural areas. Dieser Prüfbericht befasst sich mit den Herausforderungen und Chancen ländlicher Räume in Deutschland. Nach wie vor besteht ein erhebliches Ost-West-Gefälle, und dieses hat eindeutig auch ländliche Dimensionen. OECD's review of rural policy in Quebec makes a series of recommendations to address policy challenges in social development, stabilisation, and the environment. Examines whether the Norwegian model is sustainable under conditions of rapid population ageing and reduction of petroleum reserves, and suggests how competitiveness and innovation could be further developed. This report provides a framework to understand the changing relationships between urban and rural areas. Specifically, it documents the characteristics of these partnerships and the factors that can hinder as well as enable rural-urban co-operation. Three billion people live in rural areas in developing countries. Conditions for them are worse than for their urban counterparts when measured by almost any development indicator, from extreme poverty, to child mortality and access to electricity and sanitation. This report sets out how regional policies in Peru can help it to

improve productivity and maintain its growth trajectory. It also includes recommendations for how Peru can develop a comprehensive approach to urban policy, including enhancing linkages with rural areas. Rural regions in Colombia have untapped potential to boost wealth and well-being in the country. Despite remarkable economic growth over the last two decades, Colombia's development policy needs to increase its focus on rurality, as regional inequalities remain high by OECD standards and structural challenges still prevent greater development in rural places. Analyses the key socio-economic forces at work in China's rural areas and discusses the current government strategy for rural development. Chile enjoys a very sound macroeconomic framework and economic resilience, partly due to a prudent regulatory and supervisory framework for its financial system. Nevertheless, Chile lacks a comprehensive regulatory reform programme. This report examines how Chile can ensure high-quality regulation. This comprehensive review of rural policy in the Netherlands examines the character of rural areas in the Netherlands and how they have evolved. It also sets for a series of recommendations. This book reviews governance structures and decentralisation; delivering public services; economic development; and the importance of improving connectivity in rural areas of the UK. The radical transformation that Spanish rural areas have experienced in the past few decades suggest a new approach to rural policy. This report looks at such issues as rural tourism, renewable energies, rural clusters, development of peri-urban areas, and service delivery. OECD's comprehensive review of rural policy in Italy. A comprehensive review of rural policy in Scotland, that includes a profile of rural Scotland, and assessment of current policy, and a series of policy recommendations. This publication is a result of the discussions from the OECD 8th Rural Development Policy Conference: "Innovation and modernising the rural economy" which took place in Krasnoyarsk, Russia on 3-5 October 2012. The first section provides an overall view of the pre-conference sessions on the new rural paradigm, persistent fiscal constraint and economic opportunities and service delivery challenges. The second section describes modern rural economies as presented in the conference. The third section defines innovation in the context of rural areas and the fourth section presents collection of selected papers on the two main conference topics: modernising rural economies and innovation in the context of rural areas. This book provides an overview of the underlying problems in delivering services to rural regions. The report highlights the diverse challenges facing rural areas, their unused potential, and the inability of sectoral policy alone to address these challenges.
