the future of fintech  
fintech is fast  
becoming a global  
phenomenon led by  
innovators and  
followed closely by  
academics and now  
drawing the

attention of  
regulators broadly  
fintech is an  
umbrella term for  
innovative  
technology enabled  
financial services  
and the business  
models that  
accompany those  
services web 8 jan  
2023 no one can  
predict the future  
of technology  
exactly because no  
one can see the  
future however  
there are  
reasonable  
arguments that can  
be made based on  
the advances and  
trends of  
technology in the  
past for instance it  
is reasonable to  
predict that  
computers will  
continue to get  
more powerful  
numerous and  
cheaper web the  
future of iot is  
billions of cheap

small low powered  
devices that provide  
real time insights  
into every asset  
process and system  
that s important to

a given  
organization it s  
invisible ubiquitous  
and primarily  
driven by  
notifications in the  
future iot will

become invisible  
the true value of iot  
resides in the  
insights and
